

TALISHA SUTTON

PARENT | EDUCATOR | ENTREPRENEUR | LIFE COACH

An essential resource for
health, beauty & culture
support.

Why Choose Talisha?

The parents are my focus and I believe the information that I present is essential to the parent-child relationship. I am passionate about sharing this information because I have first-hand experience grappling with and solving these challenges.

Benefits

Helping children adapt to a new home setting that is away from his or her original family can be one of the most difficult parts of adoption or moving children around in foster care. Health and beauty/self-image are important role in relationship building and are also important in helping children feel loved and at home. When you incorporate Talisha Sutton (Natural-Is-In) into your organization, the impact is realized in many ways:

For Your Agency

- Identify client pain and provide solutions
- Educate and support parents and caretakers
- Enhance the lives of children

For Your Parents & Clients

- Understand cross-cultural conflicts
- Better equipped to manage health & beauty needs
- Simplify routines to provide more time for relationship building

Customized Approach

I present in a variety of formats, including keynotes, workshops, and Lunch-&-Learns. Prior to speaking I will interview you about the needs of your audience and create a presentation that is uniquely yours. In addition to this I utilize audience participation to ensure that the presentation and conversation is moving in a direction to deliver the results that your parents need.

Clients

The subject of health, beauty & culture, along with my approach to providing this greatly needed information and support, are ideal for agencies aligned with child welfare, adoption, and family services.

Partner with Natural-Is-In

When your agency partners with me, not only will you have increased access to my services, but you will also receive a partner discount.

Make this essential resource available to all of your parents regularly!

Topics

Speaking engagements featuring Talisha Sutton are content-filled, interactive, and dynamic. I generally speak on the following topics, although the actual content will vary depending on your event goals and/or audience needs:

Bridging The Cultural Gap

While cultural awareness is not always considered a key success factor, failure to recognize cultural differences typically leads to serious misunderstandings, thus jeopardizing relationship building and impacting a child's development.

Hair & Skin Care

We will take a look at nuances in natural hair & skin care and discuss various methods of hair & skin maintenance.

Health & Beauty / Self-Image

Beauty has become a controversial topic. In some instances of adoptive, foster, step-parents and/or guardians' cultural differences can influence our outlook on beauty. Interestingly these differences can unconsciously influence our children and their development and concept of self-image.

What's That Terminology?

Language is needed for any kind of communication. Language barriers are the most common communication barriers which cause misunderstandings and misinterpretations between people. Here language barriers that stem from slang or jargon will be covered.

Presentations Types
